TABLE OF CONTENTS

- Introduction
- Features
- System Requirements
- Gameplay Instructions
- Troubleshooting
- Future Improvements

INTRODUCTION

The '2048 Game' is an engaging digital adaptation of the classic tile-based puzzle game. It challenges players to strategically merge matching tiles on a 4x4 grid with the goal of creating the 2048 tile, all within a limited number of moves.

FEATURES

- **Intuitive User Interface:** Easy-to-navigate design that provides a seamless gaming experience.
- **Responsive Design:** The game is fully playable on various devices, including desktops, tablets, and smartphones.
- **Game State Preservation:** Players can pause and resume their game without losing progress.
- **Score Tracker:** Real-time score tracking and high score memory.
- **Sound and Animation:** Engaging sounds and animations that enhance the gaming experience.

SYSTEM REQUIREMENTS

- A modern web browser (Google Chrome, Firefox, Safari, etc.)
- JavaScript must be enabled in the browser.
- Internet connection for initial access and updates.

GAMEPLAY INSTRUCTIONS

- Use the arrow keys (or swipe gestures on touch devices) to move the tiles.
- Tiles with the same number merge into one when they touch.
- Plan your moves to avoid filling the grid and losing the game.
- Achieve the 2048 tile to win!

TROUBLESHOOTING

- **Issue**: Game not loading properly.
  - **Solution**: Check your internet connection and ensure JavaScript is enabled in your browser.
- **Issue**: Progress lost unexpectedly.
  - **Solution**: Ensure your device does not clear local site data on exit.

FUTURE IMPROVEMENTS

- Multiplayer mode: Compete with friends and players worldwide.
- More grid options: Different grid sizes for varied challenges.
- Achievements and leaderboards: Unlock achievements and climb the global leaderboards.

Thank you for downloading and playing the 2048 Game! We are committed to continuously improving your gaming experience.
